

BIM Level 2 Documents

EIR & Project Scope

Project Scope

Start either with an EIR template or a blank and collaboratively create your project's scope as a PDF

EIR Authoring

Customise the EIR roles and responsibilities and structure to fit your project's requirements

Collaboration

Manage your team's EIR content contributions and comments and view full audit trail

Tendering Process

Tender

Invitation To Tender

Automatically distribute the EIR to potential contractors

Pitch Submission

Using BIM Direct, contractors enter, review and submit their responses back to you

Contractors Award

Collaboratively evaluate, compare and rate responses and notify successful contractors

Project Planning

Tables

MIDP

Use BIM Direct's sophisticated online tools to manage your Master Information Delivery Plan

TIDP

Visualise the MIDP by Contractor and keep track of task deliverables.

MPDT

Keep track of who produces what at what level of detail with our MPDT

Events

Calendar

Manage RIBA Stages, Data Drops, Package Release and Meetings

List Table

View and manage Events using the comprehensive Events List table

Gantt

Manage your Construction Project with the built in Interactive Gantt Chart
